Coverlite General Purpose (GP), a registered trademark of AmeriLux, is one of the brand names for AmeriLux's multi-layer polycarbonate glazing panels. AmeriLux's polycarbonate products have been installed world wide. Our polycarbonate factories work under ISO9002 certification and produce many other polycarbonate products for various industries around the world.

8mm Coverlite GP twin wall polycarbonate products are designed and engineered specifically for commercial greenhouse use. Sheets are available in 4-foot or 6-foot widths. Our 8mm GP sheets offer UV protection on the exterior surface with anti condensate feature on the interior surface. Coverlite GP is made with an exclusive manufacturing process that results in superior anti-drip control.

Features and Benefits

HIGH LIGHT TRANSMISSION

Coverlite® sheet offers a high degree of light transmittance while blocking harmful ultra violet rays. In its structured sheet form, Coverlite® also offers excellent thermal insulation properties.

VIRTUALLY UNBREAKABLE

Coverlite® is economical and light in weight, yet is 10 times stronger than acrylic and 200 times stronger than glass!

EASILY FABRICATED ON SITE

Highly flexible, a Coverlite® sheet can be easily cold formed and will not crack or splinter when fabricated.

ANTI-DRIP COATING

This high tech discovery ensures that greenhouse condensation is carried away from the roofing so that droplets will not damage your nursery stock.

POLYCARBONATE PROFILES

Join Coverlite® structured sheets with a complete line of polycarbonate profiles.

WARRANTY

Coverlite® carries a warranty against yellowing for 10 years.

Call today for complete product information and for a distributor in your area!
