**Ages 5 times slower than
the old Generation Polycarbonate**

Available in
8mm Twin Wall

The Science of Light

Lexan® Thermoclear-Plus® sheet is superior to other available polycarbonate multiwall glazing products. Thermoclear-Plus® sheets offer a ten year warranty against yellowing and loss of light transmission. The sheets will not yellow or lose more than 2% light transmission over a ten year period. Thermoclear-Plus® will also retain its high impact strength due to state of the art U.V. protection on the sheet.
