

## February Newsletter 2011

### AmeriLux offers an on-line learning course for architects through AEC Daily

This on-line course makes it very convenient for architects to get the necessary credit as required by the American Institute of Architects. We recently revised/updated our course and it now qualifies for SD (Sustainable Design) credit and has been approved by USGBC – U.S. Green Building Council [www.usgbc.org](http://www.usgbc.org)

**“AEC Daily submitted your online course Polycarbonate Sheeting Solutions to USGBC on your behalf. The course has been successfully reviewed and approved by USGBC for 1 GBCI CE Hours and is advertised in the Greenbuild 365 course catalogue -**

**<https://www.usgbc.org/CourseCatalog/coursedetail.aspx?ID=0090005307> and it is identified as USGBC approved on our website.”**

In addition to having this on-line course we also offer to-face “Lunch & Learn” seminars. If you have an interest in having us do our presentation at your firm, contact

Betty Reed at [betty@ameriluxinternational.com](mailto:betty@ameriluxinternational.com).

face-  
please

Please visit <http://www.aecdaily.com/en/1634120?tabidx=2> to view our course.

As always please contact us with any questions or concerns. Our top priority is our customers.
