Custom Architectural Canopies

"Versatile LEXAPANEL™ Standing Seam Panels"

LEXAPANEL™ standing seam panels are an innovative polycarbonate technology that delivers reduced costs thanks to the snap-on connection and elimination of aluminum profiles, greatly reducing installation time and expense. The length and width of the polycarbonate panels can be customized to meet a projects load requirements, providing maximum, uninterrupted spans.

LEXAPANEL™ delivers the durability, high light transmission, and thermal insulation properties of the LEXAN™ THERMOCLEAR™ multiwall polycarbonate sheet. The polycarbonate construction provides high quality, diffused daylight, and increased impact strength compared to traditional translucent systems. LEXAPANEL™ standing seam panels offer architects, builders, and system integrators the flexibility to create sustainable and beautiful, transparent glazing elements.

The first impression of any building, no matter how simple, is the entry. A LEXAPANEL™ canopy is an ideal entrance solution for complimenting a geometric roof slope. Or add a curved shape to the front of a building, cold-forming the panels into a smooth arc for a unique architectural design. The versatility of LEXAPANEL™ standing seam panels offers a multitude of design

Frequently Asked Question

Q: What is a LEXAPANEL™ Standing Seam Panel?

A: It is a polycarbonate panel with raised edges. A polycarbonate batten snaps over the raised edge of two adjacent panels to form a seam.

LEXAPANEL™ delivers the strength, weatherability, clarity, and thermal insulation of the LEXAN™ THERMOCLEAR™ polycarbonate multiwall

options.

"Wisconsin Solar Design Inc. has utilized LEXAPANEL™ polycarbonate standing seam panels from AmeriLux in numerous canopy and skylight applications. Its flexible dimensions, ease of installation, durability, energy performance and attractive appearance open up many possibilities for our architects and engineers, ultimately providing a great value to the clients."

- Fred L. Holtzman, AIA, PE

If you would like more information on how this system can be used for your next canopy project, please contact us at 888-602-4441 or send an email to tech.service@ameriluxinternational.com.

AmeriLux Announces the Formation of AmeriLux Logistics

"Expanding Transportation and Logistics Offerings "

AmeriLux International is excited to announce the formation of AmeriLux Logistics, which will operate under its current name Enterprise Freight Options.

AmeriLux prides itself on finding ways to exceed its customers' expectations and add extra value. By forming AmeriLux Logistics, AmeriLux Transportation is now going to have access to a network of qualified carriers and a wide range of freight shipping services - yet another offering to better serve the marketplace.

"Enterprise Freight Options has a strong reputation and market recognition within the transportation industry," said Erik Voss, Manager of AmeriLux Transportation. "As partners, our customers will now have access to a variety of equipment and specialized trailers."

For some freight carriers it is simply about moving cargo from point A to point B. Enterprise Freight Options views freight transportation as much more than just a simple forwarding operation. They are a freight brokerage company that believes in

sheet.

DIY Tip of the Month

Thicker wall multiwall polycarbonate panels offer increased thermal insulation but the tradeoff is usually a loss in light transmission.

In the case of a greenhouse application, this can have an effect on plant growth.

A hobby greenhouse is an investment so decide how you plan to use your greenhouse before purchasing your greenhouse covering.

Employee Spotlight: Amber Rogers

"A Positive 'Can-Do' Attitude"

Amber Rogers, president of AmeriLux Logistics / Enterprise Freight Options, is a strong-minded businesswoman. Her positive 'can-do' attitude has taken a small business that she started out of her home to the successful and reputable freight brokerage company that she runs today.

With top-notch systems in place to help resolve and prevent issues from happening, Amber prides herself on being highly organized and thorough. She has a unique ability to think outside of the box and deliver creative solutions. Even when the male-dominated world of freight transportation gets a little crazy!

"Promises are not made unless they can be kept," said Amber. "Close attention to details, the dynamics involved in moving a load, and taking care of your business and all the relationships involved are considered second nature to us here at Enterprise Freight Options."
