

Since the company's inception, AmeriLux International, LLC has consistently maintained and pursued its commitments towards ensuring a high level of customer satisfaction and a dedication to high quality products. These factors have been instrumental in shaping our corporate culture and bringing about our proud record and achievements to date. In establishing our company's position as a market leader, the management and staff are equipped with a total commitment to implement and achieve our desired goals in the future.

The AmeriLux International, LLC, team is ready to serve all your product specifying and design requirements anywhere in the world. We provide expert consultation to match the most appropriate product with your exact requirements. In North America, we have a complete network of regional warehouses, sales and customer service representatives.

**This is what Tom Fessler, Co-Owner of Woodburn Nursery and Azalea, Inc had to say about his experience working with AmeriLux International, LLC:**

*“We’ve had the 8mm Thermoclear-Plus\* on our greenhouse for over 23 years. This greenhouse glazing has outperformed and out lasted all the other brands. It is simply the best polycarbonate on the market.”*
