

Agrilite® Corrugated PVC Liner Panels

Q. What are Agrilite® PVC Corrugated Liner Panels?

A. Agrilite® panels are lightweight, corrugated PVC liner panels engineered for agricultural, industrial, and commercial interiors. They are strong, rust-proof, impact-resistant, chemical-resistant, and non-flammable, featuring a bright ultra-white finish that reflects light and is easy to clean.

Q. Where can Agrilite® panels be used?

A. Agrilite® panels are designed for tough environments and are commonly used in agricultural settings such as hog barns, poultry houses, and dairy facilities. They're also ideal for industrial and commercial applications, including warehouses, food processing plants, meat-packing facilities, kennels, marine environments, workshops, fertilizer storage areas, aquaculture operations, showrooms, and more.

Q. What profiles, sizes, and colors are available?

A. Profiles: Available in two profiles, Greca and 9".
Width: Standard sheet width is 38" (net cover is 36").
Lengths: Available in 146", 196", and 244".
Color: White

Q. Are Agrilite® PVC panels UV resistant?

A. Yes, Agrilite® panels contain UV inhibitors within the raw material to help resist the effects of sunlight. However, panels should be used for indoor applications only.

Q. What chemicals is Agrilite® resistant to, and what does it not resist?

A. Agrilite® PVC panels naturally resists many corrosive substances, but PVC can absorb certain chemicals and swell. It is not recommended for exposure to acetone, ketones, ethers, or aromatic/chlorinated hydrocarbons. For a complete list of chemicals and corrosive media, please call us at 800-602-4441 or send an email to info@amerilux.com.

Q. Is there a warranty for Agrilite® PVC Panels?

A. Yes, panels are backed by a 10-year limited warranty. For full warranty information, please refer to the [official warranty document](#).
