CLADDING®**PREMIUM COMPOSITE
PVC SIDING****DURABILITY ENGINEERED**

Resists Warping, Moisture, and UV

VEYROS® TECHNOLOGY

Meets the Demands of Extreme Climates

CURATED 15-COLOR PALLET

Freedom to Design with Confidence

Elite Cladding® is engineered to install faster, deliver a cleaner finish, and provide longer-lasting performance than traditional siding systems.

Elite Cladding® combines premium aesthetics with long-lasting performance for demanding climates. Available in Lap and Board & Batten profiles, the system features Veyros® Technology—an advanced acrylic capstock that helps resist fading, warping, weathering, and heat buildup.

The patented AuraLok® Connector System creates clean, nearly invisible butt joints for a seamless, fastener-free appearance while simplifying installation and reducing labor time. Trusted by industry professionals, Elite Cladding® is a premium cellular PVC siding system that balances durability and performance with high-end aesthetics. A perfect siding solution for builders, architects, and homeowners.

LAP SIDING

Enduring Style, Tailored Performance

Elite Cladding® Lap Siding offers a modern take on a timeless profile with Premium Cellular PVC that expands and contracts far less than comparable products.

Why Choose Elite Cladding® Lap Siding?

- AuraLok® Connector System for secure, seamless install.
- Versatile styling for modern and traditional exteriors.
- Veyros® Technology for UV, impact, and fade resistance.
- True 7" exposure.
