## Backyard Polycarbonate Greenhouses "Perfect for Hobby Gardeners"

Whether you're a seasoned gardener or a novice beginner, a backyard hobby greenhouse creates the optimal environment for growing your own fresh flowers, herbs, and vegetables.

The materials used to build a greenhouse are very important in ensuring its longevity. This is especially true when it comes to choosing your greenhouse covering.

Kent Robertson used multiwall polycarbonate to cover his greenhouse. "It gets down to 0°F during the winter here in Maryland, and the double wall panels will provide good insulation. I've already had one thunderstorm with over 60 plus mile an hour wind. Trees and limbs down everywhere but no panel damage."

**Polycarbonate is a durable, low-maintenance, and affordable choice for hobby gardeners looking to extend their growing season. It's ideal for greenhouse construction!**

"I've always dreamed of having a greenhouse for growing plants as well as having a warm spot to enjoy the sun while surviving long Minnesota winters," said Karl Kloos. "We chose

## Home Harvest Greenhouse 4' x 6' Multiwall Panel Kit

Build the greenhouse of your dreams, your way! Choose your lumber type, paint or stain to match your style, and design your own space. Created for the experienced DIYer with easy-to-follow plans, a detailed cut list, and high-quality polycarbonate products.

### Sealing the Edges

What will happen if I don't tape the ends of my multiwall sheet?

**A:** The flutes of an unsealed sheet will suffer from debris accumulation, algae growth, and condensation buildup. Sealing the edges prevents dust, insects, and excess moisture

corrugated polycarbonate panels for ease of use, aesthetics, and cost effectiveness.”

There are numerous types, sizes, and styles of greenhouses that you can buy or build. With so many good choices, you are sure to find one that fits your specific needs.

from entering the flutes, maintaining the sheets clarity and structural integrity. A vital installation step!

Use a solid aluminum tape along the top edge to prevent dirt and water from entering the flutes. A breathable 'vent' tape will provide good moisture-control and is recommended along the sheet's bottom edge.

## Give BIG Green Bay 2026

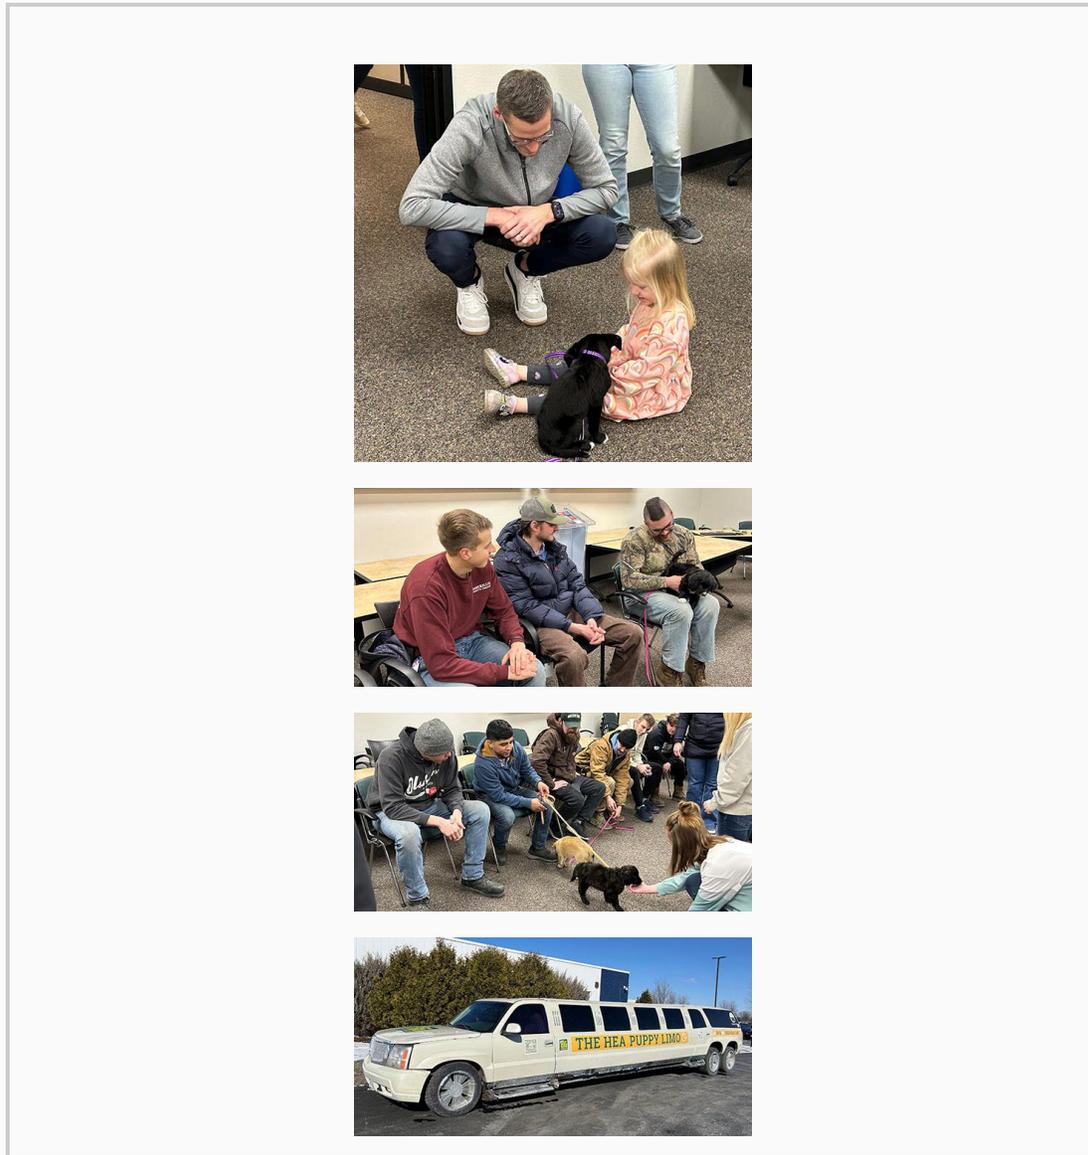

On Wednesday, the Happily Ever After Animal Sanctuary stopped by AmeriLux's headquarters in De Pere, Wisconsin with a limo full of super-cute puppies!

The reason for the special visit was to increase awareness for the 9th annual Give BIG Green Bay campaign—hosted by the Greater Green Bay Community Foundation and the Green Bay Packers Foundation.

This annual campaign supports the work of local nonprofits who serve Brown County and provides them with a platform to tell their story, reach new supporters, and engage with the community. HEA was 1 of 50 local nonprofits participating in the community-wide giving event.

Since launching in 2018, this online giving event has raised more than \$20M in donations! Give BIG Green Bay broke records again this year, raising \$3.69M in just 24 hours!
