

MAY 2026

AMERILUX NEWS

Get Your Outdoor Space Ready for Summer!

May is National Home Improvement Month, making it the ideal time to get your outdoor space ready for the warmer months ahead. Whether you're focused on adding value, improving functionality and comfort, or making aesthetic upgrades to your home, even small changes can make a big impact.

Featuring high light transmission, UV protection, superior thermal insulation, and exceptional durability against harsh weather like hail and snow, multiwall polycarbonate sheets are an ideal choice for a variety of outdoor structures including:

- **Deck Coverings**
- **Pergola or Gazebo Roofs**
- **Patio Roof Covers**
- **Pool Canopies**
- **Three-Season Rooms**

Whether it's a big renovation or simple updates to refresh your outdoor space, there are many reasons why you should choose multiwall polycarbonate sheets for your next project.

Ready to start transforming your outdoor space but need guidance on the best polycarbonate sheet for your specific needs? Contact us or

AmeriLite MW Pro

Multiwall Polycarbonate Sheets

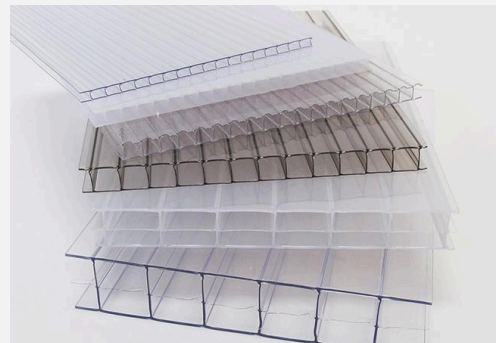

Stocked in clear, opal, softlite, and bronze, AmeriLite MW Pro multiwall polycarbonate sheets are extremely versatile, easily fabricated onsite, and can be relied upon to deliver low maintenance glazing that will last for years to come!

Connect End-to-End?

Installing Sheets for Long Spans

Q: Can multiwall polycarbonate sheets be connected end-to-end with an H-Profile?

A: No, multiwall sheets should not be connected end-to-end (lengthwise) for long spans. Doing so can compromise the structural integrity of the installation, lead to water leakage, and prevent proper thermal
