AMERILUX NEWS

Residential Rooftop Deck The DuxxBak® Difference

Located on the North Shore of Long Island, New York, is the historic hamlet of East Setauket. Like other coastal communities in the Northeast, it experiences the full range of northeastern weather. The summers are warm and humid, while the winters are cold and snowy.

When it came to replacing the roof top deck of a residential home in East Setauket, Drew Bergmann with Kingdom Contracting decided upon DuxxBak® Dekk. "We chose Duxxbak decking because of the ease of installation and quality of the product. After receiving the samples, I could tell this was an A+ product. We needed a solution for an existing over-sunroom deck and Duxxbak® was a great choice."

High-quality composite decking is designed to maintain its structural integrity through extreme temperature fluctuations. DuxxBak® decking retains its shape and finish despite freeze-thaw cycles, UV exposure, and seasonal humidity, making it well suited to East Setauket's climate.

DuxxBak® composite decking boards are a robust and long-lasting choice, offering superior resistance to the elements compared

DuxxBak® Dekk Waterproof Decking Solution

With a patented water-shedding design, DuxxBak® Dekk seals out water at the surface, keeping the space below dry without gutters, liners, or added infrastructure.

Composite vs. Wood Less Maintenance & Lasts Longer

Q: What is DuxxBak® composite decking made of?

A: DuxxBak composite decking is made from a patented blend of BioDac® (a reclaimed cellulose fiber), rice hulls and virgin high-density polyethylene (HDPE).

There is no wood filler and no PVC, which means better moisture

to wood. "The customer is very happy with the project, and I would definitely use the product again!" — Drew Bergmann

resistance, better color retention and no risk of rot.

DuxxBak® composite vs. wood: no rot, no warping, no seasonal upkeep, just long-term performance that holds up season after season.

Upcoming Trade Shows

METALCON | October 7 - 9

- Orlando, Florida
- Booth# 852

Come join us at the industry's biggest event for metal construction and design. From networking to live demos and industry insights, METALCON is where the metal construction year is made and we're excited to be part of it.

We'd love the opportunity to connect with you in person!

Company Highlights

AmeriLux Annual Golf Outing

AmeriLux held its annual golf outing on Saturday August 29th at the Hilly Haven Golf Course. Nestled along the Niagara Escarpment, Hilly Haven is one of the most beautiful golf courses in Wisconsin.

Foursomes teed off at 9:00am with a shotgun start. Teams enjoyed a little friendly competition and camaraderie on the greens, followed by food and drink at the Hilly Haven clubhouse.

This has become a summer event that everyone looks forward to each year. A perfect blend of fun, relaxation and connection!
