WHY ELITE CLADDING™?

Elite Cladding™ combines the AuraLok™ Connector System and Veyros™ Technology to deliver a siding solution that installs faster, looks cleaner, and lasts longer than traditional systems. The patented panel interlock eliminates exposed fasteners, seam bars, and caulked joints, allowing panels to self-align for consistent reveals and reduced installation time. That means no unsightly seams that separate over time. The result is a refined, modern aesthetic with clean seams and uniform lines. Veyros™ Technology, a next-generation material formulation and acrylic capstock, enhances long-term durability with superior color retention, lower thermal movement, and protection against UV degradation and fading. Together, these innovations provide a clear advantage over fiber cement, engineered wood, and other composites offering better alignment control, lower maintenance, and a more reliable, high-performance exterior for builders, architects, and homeowners.

AURALOK™ PANEL CONNECTOR

The AuraLok™ Panel Connector System is a patented interlocking connection technology included with Elite Cladding's Premium Cellular PVC siding products. It enables precise panel alignment, creates a seamless façade with minimal visible joints, and reduces installation complexity and time. AuraLok™ also supports a clean aesthetic with no exposed fasteners and tight butt joints that are almost invisible in finished installations.

AuraLok™ Panel Connector

VEYROS™ TECHNOLOGY

Meet VEYROS™ Technology, the science behind siding built for every climate, delivering 20% less thermal movement for a clean, seamless wall free of gaps, lightweight strength for easier installation, next generation material engineering for extreme climate resilience, superior color protection with 20–50% better retention on dark tones, and long term defense against UV, impact damage, and fading.

Color Matched Edge

Acrylic Capstock

Our curated palette is designed to complement any architectural style, from modern builds to timeless classics. Each swatch reflects the durability, depth, and refined finish that define Elite Cladding™. Browse the full range to find the perfect match for your next project.

COLOR SWATCHES

INSPIRE. CURATE. RECREATE.

The Elite Cladding™ range brings together siding, trim, and accent hues that don't just complement each other, they elevate architectural expression. Think beyond beige: envision the interplay between bold accent tones and refined trim finishes, layered to create timeless harmony or modern contrast. Whether you're designing for rustic charm, coastal calm, or urban sleekness, our swatches help you build palettes with purpose. Explore combinations that reflect personality and create visual rhythm, because true design starts with inspired color.

Create your MARK!

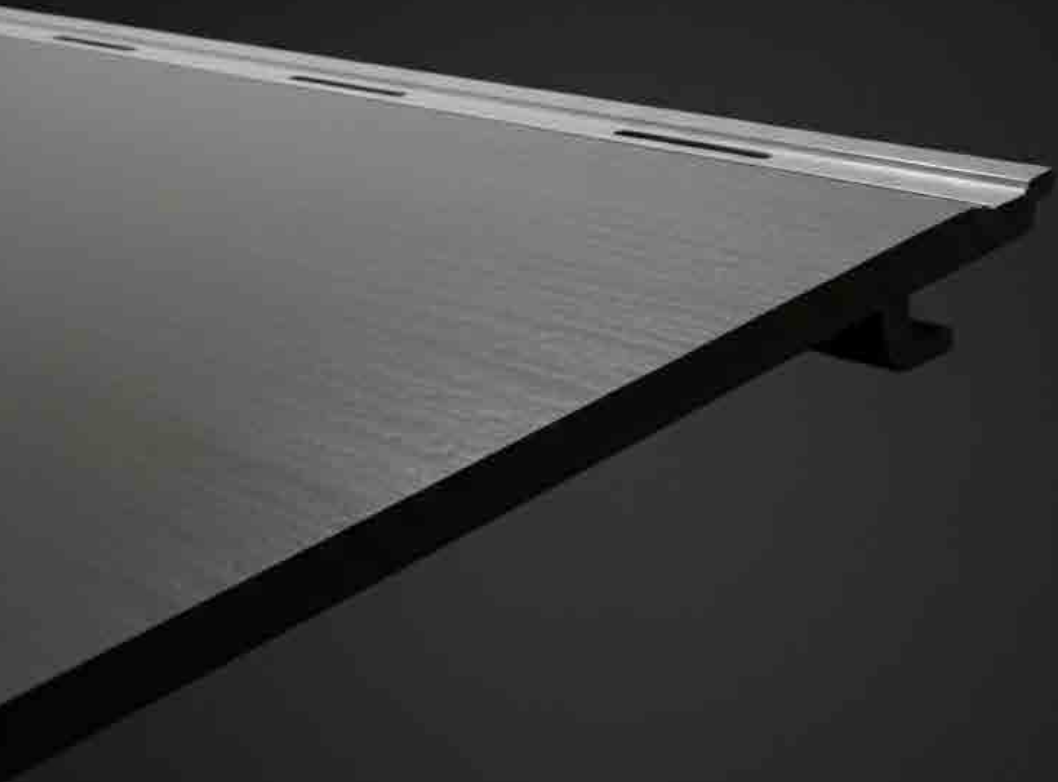

Your home's exterior is **your statement**, and **your tone** begins with the **choices you build it on**.
