

Job description:

About the A-Team:

At AmeriLux, we value culture above all else and look towards the future with optimism. Our goal is to place our team members in a position that will make them feel the most fulfilled. Our team members are empowered to make a play as we believe that the only people who have never made a mistake are those who have never done anything. We value new ideas and use the power of the magic of momentum as we continue to grow.

Job Duties | Qualifications:

- Utilize CAD software to design, build and implement vacuum fixtures for existing products.
- Program, setup, and operate 3 axis CNC machines.
- Design components to be 3D printed.
- Create production ready programming for Robotic arm trimming operations.
- Basic understanding of Thermoforming and compression molding.
- Proficient with hand/ power tools.
- Works well in group and individual projects.
- PLC Programming/machine automation experience is a plus.

Pay Range: \$17.00-\$22.00

The internship program is structured as ongoing to provide hands-on experiences and professional development, which may transition into a full-time role contingent on organizational needs.
