Why Choose PVC Wall & Ceiling Panels? "The Perfect Paneling Solution"

TRUSSCORE™ PVC liner panels are an ideal replacement for conventional wall or ceiling systems. Cost-effective when compared to other materials, TRUSSCORE can be used in both new construction and retrofit applications.

TRUSSCORE'S inner truss design provides industry-leading spanning capability. This product provides the best strength-to-weight ratio of any other like panel on the market today. The unique webbed design also helps to prevent racking and increases the panel's overall rigidity and strength.

Highly durable, TRUSSCORE is resistant to scratches, mold, moisture, and most chemicals. The panel's surface will not corrode or support bacteria growth. TRUSSCORE meets or exceeds statutory building codes, satisfying the stringent requirements of modern hygienic construction.

With a specially designed tongue-and-groove interlocking system and pre-punched holes for fastening, the lightweight TRUSSCORE panel is extremely easy to handle and install. TRUSSCORE panels require no special training or tools to install and are safe to work with using normal construction practices. Working green —

Featured Product TRUSSCORE™ PVC PANEL

Featuring an industry leading 1/2-inch thick wall design, TRUSSCORE™ is available in a 16" width and is stocked in 8', 10', 12', 16', and 20' lengths.

The tongue-and-groove interlocking system makes both vertical and horizontal installation quick and easy. TRUSSCORE panels require no special tools or training to install.

TRUSSCORE meets CFIA (Canada) and FDA & USDA (US) requirements and comes with a limited lifetime warranty.

TRUSSCORE has a Class A fire rating which equates to potential insurance savings.

Correction: In last month's feature project article: Charles Raml, not Charles Rami, is the correct spelling of the owner of Iron Ranch Manufacturing. We apologize for the error.

Ask the Tech Expert

the waste material is recyclable!

TRUSSCORE™ is designed for a wide variety of demanding applications including:

CAR & TRUCK WASHES:

TRUSSCORE is perfect for the rigorous requirements of car wash bay walls and ceiling coverings.

The highly-moisture resistant panel is well suited to wet environments and will not support mildew or mold growth.

INDOOR GROW FACILITIES:

TRUSSCORE'S bright white, reflective surface will help reflect light back into the grow room.

Plants will be able to use more of the artificial light produced by indoor grow lights — they will grow faster and produce bigger yields.

GARAGES & WORKSHOPS:

TRUSSCORE panels are also available in the color grey.

Classic and timeless, the grey finish is the perfect 'neutral' color and has the ability to subtly transform a garage or work space, adding a finished look.

Unlike other interior wall cladding panels, TRUSSCORE will never need to be painted, coated, or otherwise sealed.

Looking for a great alternative to drywall, plywood, plasterboard, or fiberglass panels? Wherever you need a smooth finish that is easy-to-clean, low maintenance, hygienic, and abuse resistant, TRUSSCORE has your project covered!

TRUSSCORE is a trademark of MSW Plastics. "A leader in plastic extrusion"

Q. Why choose multiwall polycarbonate for a pool enclosure?

A. Unlike glass, polycarbonate is lightweight, incredibly strong, and will not shatter or break.

The cellular structure of multiwall polycarbonate provides excellent insulation properties. This feature helps keep the pool temperature warmer and reduces heating costs.

UV-treated multiwall panels offer protection from the sun's harmful rays, reducing the risk of sunburn.

In addition, a polycarbonate pool enclosure will keep dirt, debris, insects, and unwanted critters out. Spend less time cleaning and more time swimming!

Thinking about building a pool enclosure this spring? Call 888-602-4441 today for more product info.

DIY Tip of the Month
"Enjoy Your Deck Rain or Shine"

Functional and aesthetically pleasing, a polycarbonate cover is a great addition to any deck or patio.

Polycarbonate sheets come in a variety of colors and light transmissions. Clear sheets allow plenty of sun to shine through while providing protection from pesky rain showers. Softlite or opal colored sheets help to diffuse harsh midday light, eliminating glare and hot spots. Bronze sheets are perfect for providing a little extra shade.

Want to enjoy your outdoor space more? Cover it with durable, long-lasting polycarbonate panels!

Company Highlights

Meet the A-Team | Jackie Pearson

Drawn to AmeriLux by the company's culture and strong values, Jackie Pearson joined the Customer Relations Team this past January. Jackie brings a strong skill set to AmeriLux, having over 20-years of experience working with a diversified client base in the legal field.

As an AmeriLux Customer Relations Manager, Jackie's key responsibilities include answering product related or installation questions, providing timely quotes, and processing work orders. "Learning a new industry is a big challenge, but I am embracing every opportunity to learn."

Jackie enjoys being able to assist customers and meet their needs. She strives to create positive experiences by carefully considering the unique needs of each customer. Jackie went on to explain a little further, saying that, "Being treated with respect and as a priority is what makes for an exceptional customer experience."

Fun Fact: Jackie loves to pop bubble wrap!

"AmeriLux just felt right - right from the start. A feeling that can't always be found. The staff is amazing and team driven."

AmeriLux Brand Ambassador

Congratulations to Kelly Romenesko for being nominated this month's Brand Ambassador! Kelly is being recognized for exemplifying the AmeriLux core value statement "Conflict is a Good Thing!"

"At AmeriLux, conflict is thought of as 'conflicting ideas'. If someone has a new idea that might threaten the status quo, we listen and are open minded - even if it's not the best idea. With the right attitude, we cultivate better relationships with our teams and keep the door open for improvements. If everyone is comfortable giving and receiving feedback, growth is inevitable!" - Kelly Romenesko, Customer Relations Manager
