

AGRILITE®

Corrugated PVC Liner Panels

"A Great Economical Alternative to Metal"

Agrilite® Corrugated PVC Liner Panels are strong, rust-proof panels that naturally resist chemicals. Non-flammable and impact resistant, these panels are perfect for use on the most demanding agricultural, industrial, and commercial applications.

Owners of agricultural and light industrial buildings regularly choose the virtually indestructible Agrilite® Corrugated PVC Liner Panel for its remarkable durability, ease of installation, and outstanding versatility. These lightweight corrugated panels are easy to handle and require no special equipment for installation. Agrilite® can be cut using basic woodworking tools and is easy to clean with conventional spray equipment.

*"Lightweight and Easy to Install
No Special Tools Needed!"*

Great Economical Alternative to Metal

Chemical Resistance of PVC Products differs significantly from the mechanism of corrosion of metals. Chemical attack on PVC sheet, where it occurs, consists generally of absorption of the chemical by the PVC sheet and its subsequent swelling.

For a complete list of chemicals and corrosive media, please contact us. It is important to note that PVC sheets are generally not recommended for use with acetone, ketones, ethers, and aromatic and chlorinated hydrocarbons.

Agrilite® Corrugated PVC Liner Panels come with a 10-Year Limited Warranty. Warranted to maintain a good surface condition, Agrilite® PVC Panels will not rot, corrode, develop structural cracks, or require refinishing when kept reasonably clean through semi-annual washing to remove accumulate dirt and debris.
