

Formed in 2004, AmeriLux International is a value-adding distributor and fabricator of building materials and plastic sheet products. Our product offering includes multiwall and corrugated polycarbonate sheets, PVC liner panels, HDPE panels, acrylic sheet, and many other plastic sheet products. These plastic sheet products are used in a variety of glazing, cladding, and daylighting applications in the industrial, agricultural, horticultural, and architectural markets.

Headquartered in De Pere, Wisconsin, AmeriLux sources and distributes materials from and to companies around the world. It is by building and maintaining strategic, win-win partnerships with vendors, customers, and employees that AmeriLux can profitably – and sustainably – grow its business.

With an emphasis on customer service and support, AmeriLux seeks to provide its customers with creative, cost-effective solutions to their unique challenges. This solutions-focused mentality has driven key equipment investments, enabling AmeriLux to provide a variety of fabrication services, component assembly, and turn-key manufacturing solutions.

- *As part of its ongoing commitment to provide a wide range of high-quality plastic products, AmeriLux has significantly invested in warehouse and distribution center space over the years. This increased inventory storage allows AmeriLux to carry a large product offering in various structures, thicknesses, coatings, colors, and sizes.*
- *AmeriLux is also dedicated to educating the architectural, building, and construction communities on the benefits of using its plastic sheet products. AmeriLux offers distance learning courses, webinars, and in-person presentations on topics such as energy efficiency, polycarbonate glazing solutions, and sustainable design.*

To reduce lead times and improve on-time delivery with key customers, AmeriLux International started AmeriLux Transportation in 2012, a trucking company with its own drivers and equipment. With the formation of AmeriLux Logistics in 2015, AmeriLux has access to a network of qualified carriers and a wide range of freight shipping services - yet another offering to better serve the marketplace!

AmeriLux acquired Shape Products in August of 2020. Located in Menomonie, Wisconsin, Shape Products is a manufacturer of standard window wells, egress window wells, and window well covers. Shape is also a leading expert in both thermoforming and compression molding. By integrating these products and services into its existing portfolio, AmeriLux can bring even more value to its customers while continuing to build a sustainable enterprise.

***“We invest in creating wins for all stakeholders in AmeriLux: employees, investors, customers, vendors, and the community. We don’t create “win-lose” scenarios and we don’t accept “lose-win” situations.**”*

Our Products

Multiwall Polycarbonate Panels

- Long-Term Light Transmission
- Outstanding Thermal Properties
- Excellent UV and Fire Resistance
- Strong Impact Performance
- Easy to Install and Fabricate On-Site
- Pool Enclosures, Greenhouses, Canopies, Skylights

Width: 4' & 6', Length: Up to 48'
Stock Colors: Clear, Opal, Softlite, White, Bronze
Available in broad range of structures, coatings, & gauges
Add'l polycarbonate colors available by special order

Interlocking Multiwall Polycarbonate Sheets

- Good Light Transmission and Diffusion
- Superb Thermal Insulation Properties
- High Impact Strength and Stiffness
- Simple, Fast, and Easy Installation
- Eliminates Need for Vertical Profiles
- Stadiums, Window Walls, Door Transoms, Clerestories

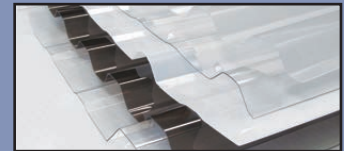

Width: 19.68" (40mm) & 39.37" (50mm*) Length: 38.7'
Stock Colors: Clear, Opal, Blue
Sheet Thickness: 40mm & 50mm*
*50mm is available through special order only

MR9" & MR12" Corrugated Polycarbonate Panels

- High Degree of Light Transmission
- Lightweight yet Virtually Unbreakable
- Flexible. Easy to Handle and Fabricate
- Anti-Drip/Anti-Fog Coating (LEXAN™ Greca only)
- Matches most Standard Metal Roofing Profiles
- Farm Buildings, Carports, Shelters, Patio Covers

MR9" & MR12" Width: 38" (Net: 36"), Length: Up to 36'
Greca Width: 26" (Net:24") or 50" (Net:48")
Greca Length: 8' & 12' (26"), Up to 38' (50")
Stock Colors: Clear, Opal, Softlite (Diffused), Bronze (Smoke)

Corrugated PVC Liner Panels

- High Gloss White Finish Cleans Up Easily
- Lightweight and Easy to Install
- Rust Proof, Low Maintenance Interior Panel
- Strong, Impact and Chemical Resistant
- Great Economical Alternative to Metal
- Hog Barns, Warehouses, Stables, Marinas

Width: 38" (Net: 36"), Length: 12'4", 16'4", 20'4"
Profile: Agrilite™ Greca, Agrilite™ 9"
Rib Height: .75" (Greca), .71" (9")
Stock Color: Bright Gloss White

Interlocking PVC Liner Panels

- All Weather Interlocking System
- Designed for Rigidity and Strength
- Resistant to Moisture and Most Chemicals
- Hidden Fasteners Provide Smooth Finish
- Full Line of Easy-To-Install Trims
- Carwashes, Dairy Buildings, Garages, Grown Rooms

Width: 16" w/an overall thickness of 3/8"
Length: 8', 10', 12', 16', 20'
Class A Smoke & Flame Finish
Stock Color: Bright Matte White

Plastic Sheets

- High Quality Plastic Sheet Products
- Variety of Colors and Thicknesses
- Cut-to-Size and Standard Stock Sizes
- Safer and Stronger Alternative to Glass
- Ideal for DIY, Craft and Home Repair Projects
- Cabinet Inserts, Backsplash, Yard Signs, Cutting Boards

Acrylic Solid Sheet (Clear & Colored)
Polycarbonate Solid Sheet (Clear)
Fluted Polypropylene (White, Red, Yellow, Blue, Green)
HDPE Sheet (Black & White)
