

Role: Production Team Lead

AmeriLux International is hiring! We are looking for a hardworking, driven, team member to join our distribution center. You can expect to be cross-trained through the departments in our DC - giving you the ability to float where needed and eventually being assigned a permanent department that fits your skills and desires in addition to the needs of our Operations team and AmeriLux International. Leadership and growth opportunities are widely available.

Job Duties | Qualifications:

- **Team Leadership & Development:** Manage and mentor a team of machine operators across two shifts, providing clear direction, guidance, and support to ensure high performance and engagement.
- **Positive Workspace Cultivation:** Foster and sustain a positive, collaborative work environment that motivates team members and promotes open communication and innovation.
- **Performance Management:** Lead regular performance reviews, provide constructive feedback, and identify opportunities for professional growth, ensuring team members meet and exceed expectations.
- **Continuous Improvement Leadership:** Champion and implement continuous improvement initiatives that enhance operational efficiency, reduce waste, and optimize production processes.
- **Operational Excellence:** Own key performance metrics for safety, quality, delivery, and cost, consistently monitoring and striving for improvement across the team.
- **Cross-Functional Collaboration:** Partner with customer relations and sales teams to ensure that customer expectations are understood and met, driving customer satisfaction and long-term business success.
- **Data-Driven Decision Making:** Collect, analyze, and interpret operational data to guide decision-making, process enhancements, and strategic planning.
- **Strategic Planning & Execution:** Work closely with the Plant Manager to oversee daily operations and contribute to long-term planning, aligning team performance with organizational goals.
- **Machining Expertise:** Leverage machining experience to evaluate raw materials, troubleshoot machinery and processes, and drive continuous improvements in production outcomes.
- **Workplace Efficiency:** create and provide guidance on existing standard operating procedures to ensure safety and quality through operations.
- **Production Scheduling:** Utilize Plan methodology to create, adjust, and assess departmental performance against production schedules, ensuring timely and efficient execution of work orders.
- **Inventory Management:** Assist to help streamline inventory, ensuring accuracy and timely reporting while gaining exposure to supply chain operations and material forecasting.
