

LEXAN™ CLINIWALL™ FR POLYCARBONATE SHEET

Designed to meet the challenges and expense of complying with sanitation standards and fire safety regulations, the LEXAN™ CLINIWALL™ polycarbonate sheet is an excellent choice for interior wall applications in public, hospitality, healthcare, and industrial facilities. Ideal for both new and retrofit wall applications. LEXAN™ CLINIWALL™ is easy to form and install, even for existing buildings.

Features & Benefits

- 100% Recyclable, 'PVC Free' & Non-Chlorinated
- Lifetime Anti-Bacterial Properties
- Excellent Resistance to Chemicals & Protein Stains
- Withstands Frequent Cleaning & Disinfection
- Scratch Resistant, Suitable for Digital Printing
- High Impact Strength, Virtually Unbreakable
- Durable, Easy to Install & Cold Bend
- Excellent Fire Safety & Smoke Performance

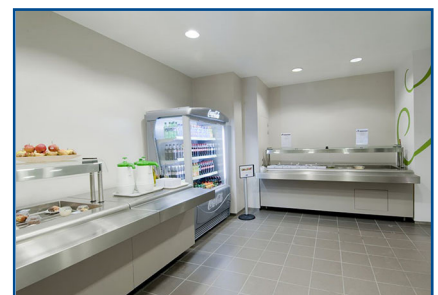

Healthcare Facilities

- Hospitals & Clinics
- Primary Care Facilities
- Sterile Rooms
- Laboratories

Public Spaces

- Schools & Sports Centers
- Restrooms
- Airports & Train Stations
- Bus Stops

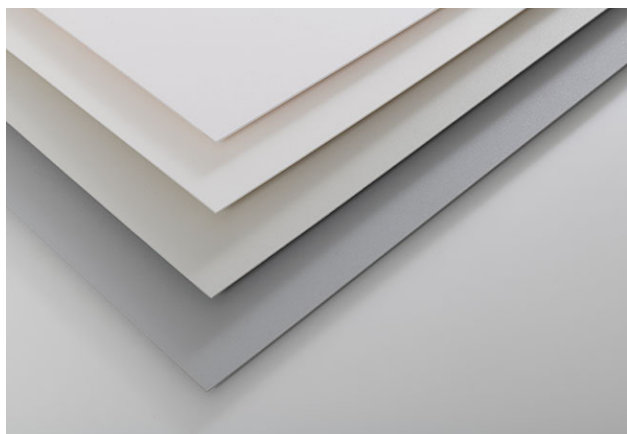

Industrial Facilities

- Pharmaceutical Factories
- Industrial Kitchens
- Storage Rooms
- Refrigeration Facilities

LEXAN™ CLINIWALL™ FR POLYCARBONATE SHEET

LEXAN™ CLINIWALL™ FR is a solid, opaque polycarbonate sheet that is non-chlorinated and non-brominated. It offers excellent resistance to protein-based stains, including many bodily fluids as well as foods like dairy products and baby food. The sheet's anti-bacterial properties create a layer of protection against the potential spread of infections, making it a great choice for hygiene-sensitive operations.

This high-performance sheet is highly resistant to most chemicals, like those found in hospital-grade cleaning products. It is also virtually unbreakable and can withstand repeated cleaning and disinfecting. In addition, LEXAN™ CLINIWALL™ features a pre-colored, textured, durable finish, eliminating the need for painting. An interior wall cladding option that can significantly save on maintenance and repair costs.

Product Details

Color: White, Beige, Medium Grey*

Width: 4.25'

Length: 10'

Thickness: 1.5mm (0.059"), 1.7mm (0.067")

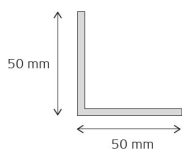

Warranty: 10-Year Written Limited

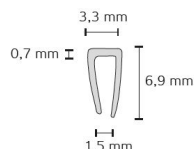

*Custom colors available through special order only. Project based. Minimum orders quantities apply. Lead times based on product schedule.

LEXAN™ CLINIWALL™ is a fire-resistant polycarbonate sheet and complies with fire safety and smoke release requirements per ASTM E84 Class A for building and construction materials.
